FORMULA TECH  
DYNOCENTRE

Custom Dyno tuning with VCM OTR and infill panel for Holden Commodore VE – VF.

### FTP STAGE 1 | VE – VF

FTP Stage 1 package includes custom dyno tuning with VCM OTR and infill panel for Holden Commodore VE – VF. When your car is properly Tuned by Formula Tech Dyno Centre Perth (Bibra Lake), it will increase your vehicle’s power and essentially use the least amount of fuel to do so. You’ve probably been hearing the term Dyno Tuning being floundered around in conversations and so it should be talked about. Dyno Tuning is the best quality, precise tune up for your car. Using the combination of cables, software and our technician’s 15 years of experience. You can be sure your trusted Walkinshaw Performance Formula Tech technician can execute essential adjustments to your car without guesswork, allowing them to tune the air/fuel ratio to match your type of motor and create maximum efficiency.

**Benefits:**

Better Performance

Increased Fuel Efficiency

Less Carbon Emmissions

Less Money Being Spent on Fuel

**Includes:**

- VCM OTR Cold-Air Induction System
- VCM Side Infill Panels
- FTP ECU Recalibration

**Price: \$1249 only (Includes Tuning and VCM OTR and infill panel)**
